Dear Logan, Peter, and Allison,

On behalf of all of us in the Professional Education Unit, I want to thank you for your participation in our CAEP visit on Monday morning, March 7, 2016. Your input on technology was invaluable to us in the accreditation process!

I am happy to report that we received wonderful news at the Exit Interview yesterday, which is that the CAEP Site Team is recommending us for full accreditation. All five standards were met with "kudos", aside from one minor area for improvement (AFI). We will receive the final report from the CAEP Accreditation Council in October.

More specifically, with respect to the cross-cutting theme of technology, the reviewers said, "The work to align programs with the ISTE standards is commended. Using recordings during micro-teaching and field experiences is also noted. The reviewers applaud the idea of enabling candidates to figure out resources at a school site and then critically deciding what available technology enhances a specific teaching/learning situation."

Thank you again for your role in helping us to receive such a positive review.

With much appreciation,

Linda
