To Whom It May Concern:

I write this letter in support of the promotion of Logan Rath to Librarian. Always willing to help, Logan generously shares his expertise in information literacies- research, problem solving, technology and more to enable faculty, staff and student success. He has worked extensively enriching my courses with face to face as well as virtual support—providing research and APA instruction. Most recently, Logan created an innovative module on gamification for my newly developed totally online Literacy elective course which was quite a student favorite. While Logan shares his expertise in the role of librarian often, he also demonstrates his willingness to engage in scholarship and research. We have been involved in several collaborative research projects and publications— and it is no surprise that Logan has been integral to their success.

Gregarious, efficient and effective, Logan is an essential part of our college community and is most deserving of promotion. Thus, I strongly recommend Logan Rath, an excellent librarian, scholar and colleague, for promotion to Librarian. Please do not hesitate to contact me with any questions.

Sincerely,

Dr. Kathleen Olmstead
Assistant Professor of Literacy
