Thank you, again, Logan!
Your time, dedication and flexibility were critical to the Monitoring Report's completion.

Best regards,
Frances

Subject: Re: Update on Monitoring Report

Hi All,

These individuals have been given access to the Document Room and online report. We did find out that as long as one document is open in a tab that the rest of the documents will not need authentication.

I'm on the 7th floor in the conference room for Senate Exec if you need anything.

Best,
Logan

Subject: Update on Monitoring Report

Hello Mary Ellen- Approximately 35 minutes ago, the team was working on Chapter 4 of the Monitoring Report.

Logan indicated the only way to avoid the "constant" entering of the password was to make it an "unsecured site."

Additionally, he said in Firefox, a reviewer could avoid the "constant" entering of the password.

I did mention not to send President Macpherson a copy until we (you and me) are able to test the entire setup, then you would send the notification to her.
Additionally, I mentioned your desire to include the vice presidents when you email the information to President Macpherson.

Logan said they will need from you a list of vice presidents so they could be issued passwords prior to your notification. Should I get this list from Cindy?

Best regards,
Frances
