

WorldCat helps you find books that aren't in Drake Memorial Library. Start at the Library home page and click the link that says "WorldCat (beyond Drake Library)"

1. Search WorldCat for a book by using keywords
2. Once you find a book you like, click on the title.
3. Scroll down to the TOPIC: section.
4. Click the link that best represents your idea. This will bring up all books *about* that topic instead of books that specifically use your search term.
5. If you see a call number, that means we own the item. Click on the call number to verify the specific location of the item.

The **Request It!** button helps you:

- ❖ **Get a copy** of the book from another library (usually <7 business days)
- ❖ **Place the book on hold** for you at the Circulation Desk (1 – 2 business days)
- ❖ **Have an item sent to the Metro Center** for pickup (1 – 2 business days)
- ❖ **Request a scan of one chapter** of the item for personal use.

A screenshot of a dropdown menu titled 'I would like to:'. The menu is open, showing several options. The first option is 'receive a copy of this item (at Drake, MetroCenter or VSW)'. The second option, 'receive a copy of this item (at Drake, MetroCenter or VSW).', is highlighted in blue. Below it are three more options: 'request a scan of one chapter of this item for personal use.', 'place this entire item on course reserve.', and 'request a scan of one chapter of this item for course reserve.'

Remember, you can get help from a librarian through chat, email, or just stop by and see us. We're happy to help!
