Hello Mary Ellen- Dody will email us in a few minutes.

The work has been completed!!!!!!

Kudos today for Logan, Dody and Cherise!!!

Yes, we are informing the reviewers regarding Fire Fox.

Best,
Frances

Thanks Frances. And yes, you can get the list form Cindy. And good to know about Firefox, let's make sure our reviewers know that.

Subject: Update on Monitoring Report

Hello Mary Ellen- Approximately 35 minutes ago, the team was working on Chapter 4 of the Monitoring Report.

Logan indicated the only way to avoid the "constant" entering of the password was to make it an "unsecured site."
Additionally, he said in Firefox, a reviewer could avoid the "constant" entering of the password.

I did mention not to send President Macpherson a copy until we (you and me) are able to test the entire setup, then you would send the notification to her.
Additionally, I mentioned your desire to include the vice presidents when you email the information to President Macpherson.

Logan said they will need from you a list of vice presidents so they could be issued passwords prior to your notification. Should I get this list from Cindy?

Best regards,
Frances
